

**Office Memorandum • UNITED STATES GOVERNMENT**

TO : Deputy Director of Training (General)

FROM : Chief, Orientation and Briefing Division

SUBJECT: Report for Week 10-16 July 1952

DATE: 17 July 1952

1. Special invitation was received from the Air Force inviting the Chief, Orientation and Briefing Division to attend the lecture of Bishop Fulton J. Sheen on "The Philosophy of Communism." Arrangements are now being completed to make a copy of the tape recording of this talk so that it will be available for CIA purposes.

2. Conversations were had with Col. Sheffield Edwards and [redacted] of the Security Office to effect final arrangements for the biweekly Presentations Program. After such conversations, two documents were prepared which have been approved by the Director of Training, one which will be issued as an Agency notice and the other a follow-up memorandum from the Director of Training, announcing the first items of the series. As matters now stand, Col. Edwards has just indicated that his schedule will not permit him to make the second presentation which we had tentatively scheduled for 20 August 1952. We will attempt to find another subject for that day and postpone Col. Edwards' second presentation to a later date.

4. [redacted] made arrangements for two special briefings to be given to individuals who are scheduled to attend Service educational institutions. The first briefing of this type was conducted on Wednesday, 16 July, for [redacted] the second will be held on Friday, 18 July, for [redacted].

5. Progress has been made in arranging for the Agency speakers to make their contributions to the Strategic Intelligence School Course. When this has been completed, a memorandum for the signature of the Director of Training will transmit the information to the SIS.

6. Gave a special presentation to the personnel of the Security Office on Tuesday, 15 July 1952. This was done in Building 13, largely for new trainees who never had any type of indoctrination or orientation.

7. Arrangements have already been made with the Department of Agriculture to schedule the Auditorium for the 8th CIA Orientation Course which will be conducted in either October or November. Because of the possibility of change of date, the Department of Agriculture kindly gave us tentative coverage for the
